This list does not cover everything we grow but only such stock as we have a fair supply to offer. Correspondence is invited regarding other kinds not listed.

Quality:

We grow only the choice varieties of perennials and rock plants, eliminating the varieties which are in poor demand, and are actually a liability, however, some varieties we grow just because we get calls for them.

We'll be glad to help you select the best varieties for your purpose.

Guarantee:

We guarantee any plant we sell to be true to name and in healthy condition, and will replace or refund the money paid for such items which are proved not to be as represented.

Terms cash, or satisfactory reference must accompany all orders from parties unknown to us. 3% discount for cash with order; 2% 10 days; 30 days net; 6% interest charged after 60 days from date of invoice.

Complaints, if any, must be made in writing to us within five days after receipt of goods.

All evergreens and evergreen shrubs that have to be dug with a little ball of dirt will be shipped express collect.

All transportation charges are prepaid to your home, unless otherwise noted. No shipping orders will be accepted for less than \$2.00.

EXPLANATION

Practically all stock offered are one and two year transplanted field grown, with the exception of some varieties which are strong pot grown.

Practically all varieties offered in this catalog except where noted will grow nicely in ordinary well drained and well prepared garden soil, with full sunlight or where they get the sun the best part of the day, morning sun preferred wherever possible.

* Indicates alpinas or rock plants, and with the exception of few varieties, can also be used in the border.

‡ Indicates the best cutflower varieties.

SPECIAL TRIAL OFFERS

You may select one each of any twelve varieties of perennials or rock plants listed at 20c each; the all 12 for only \$2.00, prepaid.

Special offer, 50 perennials or rock plants, our selection of varieties for \$7.50. Try this offer and let us surprise you. Just tell us where they are to be planted, in part shade, or sun, and whether they are wanted for the perennial border or rock garden, and we will do the rest to please you.

ASPHODELUS—Asphodel

Luteus, bright yellow flowers on 3 to 4 ft. spikes, late May and June. 25c each, 3 for 60c

‡**Astilbe**, See Spirea.

***AUBRIETIA—Purple Rock-Cress**

New Large Flowring Hybrids, lovely rock-plant, masses of bright various color flowers from early April to June, 4 in. high. 20c each, 3 for 50c

BAPTISIA—False-Indigo

Australis, dark blue flowers in June, 2 ft., attractive foliage. 20c each, 3 for 50c

BETONICA—BETONY

Grandiflora Superba, lilac-rose flowers and close tufty foliage, blooming in June-July, 18-24 in. high.
30c each

BOLTONIA—Starworth

‡**Asteroides**, small white daisy-like flowers in late summer, 4 to 5 ft. 20c each, 3 for 50c

‡**Latisquama**, pink form of the above 20c each, 3 for 50c

BUDDLEIA—Butterfly Bush

‡**Charming (The New Pink Butterfly Bush)**, a most outstanding new plant which created a sensation when first exhibited. It was given the highest award, a Silver Medal, by the Pennsylvania Horticultural Society. Truly a glorious shrub, bearing throughout the late summer and autumn. Elegant long sprays covered with lovely lavender-pink blooms, which compared with other Buddleias introduced up to date, are distinctly pink. Strong potted plants.
50c each, 3 for \$1.25

Ile de France (new), a great variety, brilliant rosy-purple flowers with a violet suffusion, fragrant and free bloomer, 3 to 4 ft. high. 40c each, 3 for \$1.00

(Buddleia—continued on next page)

Iris Dichotoma, for July and August Blooming

BUDDLEIA—Cont.

‡**Hartwegi (New Butterfly Bush):** Hartwegi is undoubtedly the finest of all the flowering Butterfly Bushes. As a summer cut flower plant and as an ornamental lawn shrub it is unsurpassed in beauty and usefulness. The large bright lavender panicles have remarkable substance and harmonize in arrangement with other summer flowers. The flowers do not "sunburn" as do the other Davidii varieties, and the tip flowers on the panicle open before the basal flowers have faded. The individual flowers are closely spaced on the panicles, imparting a compact and pleasing appearance.

50c each, 3 for \$1.25

Bleedingheart, See Dicentra.

CALLIRHOE—Poppy Mallow

***Involucrata**, one of the best trailers for the large rockery; the plant is covered with rich crimson poppy-like flowers all summer 20c each, 3 for 50c

CAMPANULA—Bellflower

***Carpatica**, large blue flowers on compact small bushes, in bloom all summer, 8-10 in. high; fine for rockery and front of border 20c each, 3 for 50c

***Carpatica Alba**, a lovely white flowering form of the above 20c each, 3 for 50c

***Carpatica Nana**, a very dwarf compact form, lavender blue flowers on 3 to 4 in. stems 35c each, 3 for \$1.00

***Garganica**, low spreading tufts covered with starry light blue flowers, a gem for wall and rockery, May-June flowering 25c each, 3 for 60c

Glomerata, close heads of striking blue flowers, blooming freely in June-July; 18 in. . . 25c each, 3 for 60c

***Glomerata Acaule**, a lovely dwarf form with purple-blue flowers, in June, 4 to 6 in. high 35c each, 3 for 90c

Latifolia Macrantha Alba, large white bells on 3 to 3½ ft. stems, blooming freely in June 25c each

***Muralis**, dense tufts covered with lovely purple blue flowers, June-July. It prefers little shade.
30c each, 3 for 75c

***Poscharskyana**, a choice variety, blooming off and on all summer, lovely starry-blue flowers, related to Garganica, but easier 20c each, 3 for 50c

***Pseudo Raineri**, very large blue flowers on 3 to 4 in. stems, blooming freely during summer months.
30c each, 3 for 75c

‡**Persicifolia Alba**, a white form . . 20c each, 3 for 50c

‡**Persicifolia Alba Fl. Pl.**, a beautiful double white flowering form of the above 35c each, 3 for 90c

‡**Persicifolia Blue**, large pale blue saucer-shaped flowers on 3 ft. high stems, June-July 20c each, 3 for 50c

(Campanula—continued on next page)

*—Alpines or Rock Plants.

‡—Cutflower Varieties.

CAMPANULA—Cont.

- ‡*Persicifolia Caerulea* Fl. Pl., a fine double blue form.
35c each, 3 for 90c
- ‡*Persicifolia Telham Beauty* (True), very large open
Cup-shaped flowers, the color is of lilac mauve, 3 to
4 ft. 50c each, 3 for \$1.25
- **Olympica*, early flowering variety of *Rotundifolia* with
mostly upright large blue bells, more refined and
somewhat lower and compact. Blooming nearly all
summer. 25c each, 3 for 60c
- Pyramidalis*, 4 to 6 ft. spikes covered with attractive
blue star shaped flowers, during summer months.
25c each, 3 for 60c
- Pyramidalis alba*, a white flowering form of the above.
25c each, 3 for 60c
- **Rotundifolia*, the well known blue bells of Scotland,
blooming very freely from late June to September.
12 in. high. 20c each, 3 for 50c
- **Sarmatica*, a fine *Campanula* for Rockery or the Har-
dy border, pale-blue, flowers during summer months,
12 in. high. 25c each, 3 for 60c
- **Turbinata Blue Gem*, a lovely seedling of our own,
growing 4 to 5 in. high, and completely covered with
a bright blue *Carpatica*-like flower, blooming the en-
tire summer. A charming little plant. We recom-
mend it very highly. 30c each, 3 for 90c
- **Turbinata White Gem*, a very lovely white form of the
above. 20c each, 3 for 90c
- ‡*Medium Canterbury Bells*, mixed or separate colors.
20c each, 3 for 50c

CARNATION—Hardy

- ‡*Crimson King* (new), dazzling double crimson flowers,
in bloom from late spring to fall, an outstanding
border plant, 18 in. 25c each, 3 for 60c
- ‡*Hardy Border Mixed*, a very fine strain of Hardy Car-
nation, grown from seeds taken from all double flow-
ered plants, early summer flowering.
20c each, 3 for 50c

CARYOPTERIS—Blue Spirea

- ‡*Incana*, a splendid late summer flowering shrub. The
3 ft. compact bushes are covered with blue flowers.
35c each, 3 for 90c

CATANANCHE—Cupid's Dart

- ‡*Caerulea*, greyish foliage *Centaurea*, like sky blue
flowers with deep blue center, June-July. 2 ft.
20c each, 3 for 50c

CENTAUREA—Cornflower

- Dealbata*, striking rose-pink flowers in June-July, a-
bout 18 in. high. 20c each, 3 for 50c
- ‡*Macrocephala*, large golden yellow flowers on erect
2½ to 3 ft. stems, blooms June-July, fine for cutting.
25c each
- Montana* (perennial cornflower), large deep blue flow-
ers blooming freely late May and June, about 18 in.
high. 20c each, 3 for 50c

Dianthus Bobby—try it

CEPHALARIA—Giant Scabiosa

‡**Tatarica**, large creamy-white flowers in July, 4 to 5 ft.
25c each, 3 for 60c

CERASTIUM—Snow in Summer

***Alpinum Lanatum**, a rare little Cerastium with distinct wooly gray foliage covered with white flowers in the late spring. 4 in. high. Plant in well drained and sunny spot in the rock garden. . . . 25c each, 3 for 60c

***Columnae**, a lovely miniature form; it doesn't spread all over like *Tomentosum*, compact silvery foliage and large white flowers on 4 in. stems, choice and rare. 25c each, 3 for 60c

CHEIRANTHUS—Wallflower

‡**Allioni Golden Bedder**, novelty, the color of this fine novelty is beautiful golden-yellow, it will blend better with many other flowers, than the old orange form. 25c each, 3 for 60c

CHELONE—Turtle-head

Lyoni, heads of purplish red flowers; it starts to bloom in late August to early October, about 2 ft. high. We consider it a splendid border plant.

25c each, 3 for 60c

CHRYSANTHEMUM—Hardy Garden Varieties

‡**New Korean Hybrids**, these new chrysanthemums are hardier, most attractive in color; they are early blooming, easier to grow and more profuse blooming; useful as cutflowers.

New Double Flowering Korean Hybrids

Caliph, for sheer intensity of color, this variety cannot be equaled. The color is ox-blood-red, with rich velvety sheen or glow so prominent that it stands out conspicuously among all other Chrysanthemums of this color. Remarkably free in flowering. Height, 2½ ft. In full flower October 10. . . 35c each, 3 for 90c

Indian Summer, large double glowing orange flowers, the unfurled central petals add a luminous golden orange reflection, sturdy erect growth and free flowering, flowers are 3 in. across, 2 to 2½ ft. high, October flowering. 25c each, 3 for 60c

Mandarin, coral, salmon, copper and bronzy gold blend to a delightful combination. Performed double flowers, 2½ in. across, are carried profusely on erect, wiry stems. The plant is compact in habit and somewhat dwarf—about 2 ft. in height. In full flower October 10. 35c each, 3 for 90c

‡***Pygmy Gold**, a distinct dwarf Korean Pompon type producing quantities of miniature blossoms slightly over 1 in. across. The color is a clear golden yellow remarkable for its brilliance and intensity. Commencing to flower in early September, it is easily the most colorful Chrysanthemum yet introduced. Unusual, also, because it retains its effectiveness right up until the season ends. Grouped in the rock-garden or hardy border or used for edging, it will prove the delight of the autumn. 35c each, 3 for 90c

(Chrysanthemums—Continued on next page)

*—Alpines or Rock Plants.

‡—Cutflower Varieties.

DOUBLE KOREAN CHRYSANTHEMUMS—Cont.

Romany, fully double flowers, the color is soft-glowing red with bronze tone, illuminated somewhat by the gold petal reverse appearing in the center of the flower, in bloom in early October, height 2½ ft.

25c each, 3 for 60c

Ember, this is a remarkably hardy and rugged Chrysanthemum. In color, a brilliant glowing bronze that stands out in comparison with any others in this color. The bloom is not too double and of excellent form, 2½ in. in diameter. Flowering in mid-October, it will be particularly desirable if a mid-season variety is wanted. Height, 2½ ft. 25c each, 3 for 60c

King Midas, in profusion of flowers, there is no double hardy Chrysanthemum comparable to this lovely newcomer. The plants are literally covered with flowers for a very long period, commencing in late September and continuing throughout October. The flowers average 4 in. in diameter, are fully double, and a charming shade of soft yellow with the faintest bronze shadings appear occasionally.

25c each, 3 for 60c

Symphony, mauve-rose overcast soft coppery rose, with the sheen of a damask silk, would describe the dominant colors of this new variety. The flower in maturing acquires silvery lilac and faint copper tones, very lovely but elusive and impossible to describe with accuracy. The flowers are large, 3 in. across, double, nicely formed, and carried on heavy, sturdy stems, height 2½ to 3 feet. In full flower October 10.

35c each, 3 for 90c

The Moor, here is an introduction that has been greatly admired by many who fancy this particular color, best described as amaranth-purple or port-wine-red. It is noted for its intensity and brilliance in the garden. Flowers 3 in. across, double. In full flower in late September. Height 2 ft. Very hardy.

25c each, 3 for 60c

New Singles

Agnes Selkirk Clark, a profusion of single blossoms, 3 in. across, which shade from bronzy pink and apricot to salmon. A compact and graceful plant. Height, 2 to 2½ ft. In full flower late September.

25c each, 3 for 60c

Nancy Copeland, spectrum-red color. The strong upright plant is completely covered with branching sprays of large, single flowers 3 to 3½ in. across, attaining perfection in late September. 2 to 2½ ft.

25c each, 3 for 60c

Pink Lustre, a fine single flower, 3 to 3½ in. across, with several rays of petals and good substance. It is a delightful shade of orchid (Laelia)-pink, quite distinct among all other pink kinds. Remarkably free, it produces strong branching sprays in profusion throughout October 25c each, 3 for 60c

(Chrysanthemums—Continued on next page)

Try one each of our three Butterfly Bushes,
You will be pleased with them

CHRYSANTHEMUMS—Cont.

Saladin, a startling addition to the single varieties—best described as Chinese or Oriental red, shading to coral-red with coppery tones showing on the petal reverse. The individual blossom, 2 in. or more across, is substantial, having four rays of petals. It is a vigorous-growing variety, producing branching sprays of delightfully fragrant blossoms. Height, 2½ to 3 ft. In full flower October 10. . . . 35c each, 3 for 90c

Korean Hybridss of Recent Introduction

Aphrodite, single, the color is a soft tint of pink in the opening, changing to ivory-white with the slightest mingling of delicate pink in the fully developed gerbera-like blossoms, flowers are 3 to 3½ in. across, very free flowering, 2 ft. high early October.
20c each, 3 for 50c

Saturn, brilliant sparkling orange and bronze, with golden-yellow center, robust branching habit, the single flowers are almost 3 in. across, 2½ to 3 ft., early October. 20c each, 3 for 50c

Venus, single lilac-pink with rose-lavender shading flowers are 2½ in. across, with three or four rows of petals, starting to bloom in late September, height 2½ ft. 20c each, 3 for 50c

Hebe, lovely, luminous pink which assumes soft lavender-pink tones as the flower matures. The golden-yellow center affects a lovely combination in the nicely formed single blossoms which average 3 in. or more across, producing masses of fragrant blossoms in almost unbelievable quantities during late September and through October. Height 2 to 2½ ft.
20c each, 3 for 50c

Orion, brilliant canary-yellow which fairly dazzles in the autumn sunlight, it immediately commands attention among older varieties of similar color, the flowers are single, 3 in. across, height 2½ ft. October 5.
25c each, 3 for 60c

Vulcan, glowing carmine-red which shades to garnet-crimson and finally to an attractive bronze-crimson as the flower matures, it has a double row of ray-like petals with a conspicuous golden center and is delightfully fragrant, habit erect and extremely free, October, 2½ ft. 20c each, 3 for 50c

Apollo, a sparkling combination of bronze, red and gold suffused with glowing salmon flowers, are 2 in. across, blooming freely in October; height 2½ ft.
20c each, 3 for 50c

Ceres, old gold blended with chamois-yellow and dusted with coppery-bronze, October 10; height 2 to 2½ ft.
20c each, 3 for 50c

Mars, deep amaranth-red, changing to wine-red, overlaid with velvety sheen, height 2 to 2½ ft., October 15. 20c each, 3 for 50c

EARLY FLOWERING KOREAN "MUMS"

Clio. Dwarf, compact plants of attractive habit producing great masses of deep carmine-rose flowers of a beautiful duplex form. 20c each, 3 for 50c

(Chrysanthemums—Continued on next page)

*—Alpines or Rock Plants.

‡—Cutflower Varieties.

- *Lutea**, a choice and pretty rock plant, small yellow flowers from late May to Fall, easily grown in sun or shade, 12 in. high.....35c each, 3 for 90c

COTONEASTER—Rock Spray

- *Dammeri (Humifusa)**, an essential creeping shrub for the rockery, a perfect prostrate species with bright evergreen foliage and coral red berries.
25c to \$1.00 each

- *Horizontalis**, low growing shrub with horizontal branches, small dark green leaves covered with red berries in fall, a fine shrub for many uses.

25c, 50c and \$1.00 each

CYPRIPEDIUM—Lady's Slipper

Fine plants for naturalizing in shady woodland.

- Acaule Pink**.....25c each, 3 for 60c
- Pubescens Yellow**.....25c each, 3 for 60c
- Spectabile**, lovely pink30c each, 3 for 75c

Late September and early October is an ideal time to come and see our block of hardy Chrysanthemums in bloom

DAPHNE—Garland Flower

Cneorum, a lovely spreading evergreen shrub with very fragrant pink flowers, flowers off and on all summer, It prefers a sunny location and light or sandy soil.

35c, 60c and \$1.00 each

DELPHINIUM

‡**Belladonna**, light blue..... 20c each, 3 for 50c

‡**Bellamosum**, dark blue.....20c each, 3 for 50c

‡**Blackmore and Langdon Hybrids**, single, semi-double and double flowers of many shades 25c each, 3 for 60c

‡**New Giant Pacific Hybrids**, an outstanding new strain. The huge florets are beautifully spaced on well balanced strong spikes, mildew resistant.

50c each, 3 for \$1.25

‡**Summer Cloud**, a fine white variety 25c each, 3 for 60c

‡**Pink Sensation**, the first clear pink delphinium ever offered. A most interesting novelty and one sure to become extremely popular. The plant is very vigorous, mildew free, and grows at a height of about 4 ft. It resembles the Belladonna type in appearance of the foliage and size of the individual blooms, and as the spikes have many laterals, the display is much enhanced. The flowers appear in early June and repeat almost continuously until the autumn. The flowers are light rose pink, a color previously unknown in Delphinium. An ideal plant for the border and for cutting. The plants are hardy having lived perfectly through two winters in Newark, New York.

\$1.25 each, \$12.50 per doz.

‡***Chinensis Tom Thumb**, a lovely dwarf variety, with attractive deep blue flowers nearly all summer. 12 to 15 in. high 25c each, 3 for 60c

DIANTHUS—Pinks

***Bobby**, the plant we offer under this name is a seedling that we selected among a lot of seedlings coming from seed bought under *alpinus allwoodi*, it blooms freely in June and off and on during summer and fall months. The flowers are large, of pleasing deep pink shade, with crimson ring toward the center, on 6 to 8 in. stems. Compact grower with effective glaucous foliage easily grown in ordinary soil in full sun; truly a gem 30c each, 3 for 75c

***Arenarius (Sand Pink)** lovely fringed white flowers on 6 to 8 in. stems, fine plant for dry places.

20c each, 3 for 50c

***Arvenensis**, lovely fragrant pink flowers on compact mats of grey-green foliage late May and June.

20c each, 3 for 50c

‡**Beatrix**, clusters of double salmon-pink flowers blooming very freely in late May and June, 10 to 12 in. high.....25c each, 3 for 60c

***Caesius**, very fragrant small pink flowers on 4 to 6 in. stems, very compact grower, cuttings propagated.

20c each, 3 for 50c

***Deltoides Erecta**, a lovely English novelty with dainty richer colored flowers erect habit .20c each, 3 for 50c

- ‡*Hartelandi*, bushy plants with graceful foliage and
pinkish-lavender, pea shaped flowers, June to August;
2 to 3 ft. high. 20c each, 3 for 50c

GAILLARDIA—Blanket Flower

- ‡*Giant English Hybrids*, many lovely shades.
20c each, 3 for 50c
- ‡**Goblin*, a splendid new dwarf Gaillardia, suitable for
edging borders and fine for the large rock garden,
blooms freely all summer. 12 in. high.
25c each, 3 for 60c
- ‡*Mr. Sherbrook*, an outstanding new yellow Gaillardia.
It has practically the same color as Sun God, but is
much easier to grow. It blooms freely the entire
summer and early fall. It is best to keep the old
blooms pinched off so that will not seed itself, be-
cause the seedling will not come back true. A very
fine plant that we recommend highly.
35c each, 3 for 90c
- ‡*Ruby*, a fine novelty, with vivid brilliant red flowers,
free from yellow or brown shading 35c each, 3 for 90c
- ‡*Sun God*, an outstanding new gaillardia, very large
clear-yellow flowers, on strong, stiff stems.
35c each, 3 for 90c

GENTIANA—Gentian

- **Acaule Clusi*, huge dazzling gentian blue trumpet
flowers, blooming in April and May and sometime
again in fall, only 2 to 3 in. high, best planted in rich
moist soil with little shade. 50c each, 3 for \$1.25

(Gentiana—Continued on next page)

Our Method of Packing We Know Will Please You

Grandiflorum, lovely white flowers in the early spring; plant in shade. 20c each, 3 for 50c

TRITOMA—Red Hot Poker

‡**Pfitzeri**, the true late summer blooming variety, with rich orange-scarlet flowers, very showy and fine for cutting. 25c each, 3 for 60c

‡**Hardy Hybrids**, earlier blooming and very hardy, with flowers of various shades of cream, yellow, orange and scarlet, on 3 to 4 ft. spikes, June-July.

20c each, 3 for 50c

(Tritoma—Continued on next page)

*—Alpines or Rock Plants.

‡—Cutflower Varieties.

TRITOMA—Cont.

- ‡**Mt. Etna**, new, a very distinct variety of vigorous growth and free flowering, enormous spikes of rich red flowers, July and August 50c each
- ‡**Royal Standard**, a brilliant two-toned flower, upper half brilliant red, the lower half yellow. A very decorative bloom, August to October flowering.
50c each, 3 for \$1.25
- ‡**Tower of Gold**, tall and stiff spikes of beautiful golden yellow, blooms freely July to September, best planted in spring 50c each

TROLLIUS—Globeflower

All Trollius prefer rather rich and moist soil, and are much benefited if planted where they will be shaded from afternoon sun.

- Europaeus**, lemon-yellow flowers freely produced in late April and May and sometime again during summer and fall months; 18 in. high 30c each, 3 for 75c
- Ledebouri Golden Queen**, a handsome variety, with large open flowers of beautiful golden yellow, being in bloom about three weeks later than above varieties, height about 3 ft. 30c each, 3 for 75c

TROLLIUS—Cont.

- Orange Globe**, large orange-yellow form of the above, being a little taller and showier 35c each, 3 for \$1.00
- Orange Prince (new)**, a beautiful deeper orange-yellow, form of Orange Globe 50c each, 3 for \$1.25
- ***Pumilus**, a profuse bloomer and easily grown dwarf variety, loves moist soil and does well near the pool or in low places in the rockery. The flowers are clear yellow on 12 inch stems 50c each, 3 for \$1.25

TUNICA—Tunicflower

- ***Rosea Fl. Pl. (double Tunica)**, lovely double rose-pink flowers, freely produced from June to fall.
30c each, 3 for 75c
- ***Alba Fl. Pl.**, a rare new double pure white form of the above, just as free bloomer 40c each, 3 for \$1.00

VALERIANA—Garden Heliotrope

- ‡**Coccinea (Centranthus Rubra)**, a grand border plant, with showy rose colored flowers, blooming very freely in May and June, with few flowers appearing all through the summer; about 18 to 24 in. high.
20c each, 3 for 50c
- ‡**Coccinea Alba**, a lovely white flowering form of the above 20c each, 3 for 50c
- Officinalis**, the true fragrant hardy garden Heliotrope.
20c each, 3 for 50c

VERBENA (Hardy)

- ***Canadensis**, a choice creeping, hardy verbenas, violet-purple flowers from May to fall . . . 20c each, 3 for 50c
- Canadensis Attraction**, another sparkling color that has been admired by all the visitors that have seen it in bloom in our display garden, fiery deep rose, with deeper crimson scarlet center. The plants are covered with blooms from June to frost. Plant it in full sun in rather dry places 35c each, 3 for 90c

(Verbena—Continued on next page)

Perennials for Cutflowers
Yes, we have many fine varieties

VERBENA—Cont.

- ***Canadensis Brilliant**, new fiery-scarlet flowers in bloom all summer, plant in dry sunny place. A striking color that appeals to all..... 35c each, 3 for 90c

VERONICA—Speedwell

- ***Armena**, a lovely and very distinct little veronica, attractive finely-cut foliage and blue flowers in early spring..... 20c each, 3 for 50c
- ‡**Blue Spire**, new, an hybrid of subsessilis and spicata, having the lovely blue color of subsessilis and being almost as easy to grow as spicata 35c each, 3 for 90c
- ***Incana**, silvery-gray foliage, deep blue flowers in June; 12 in..... 20c each, 3 for 50c
- ***Incana Rosea**, new, same as above variety with lovely pink flowers..... 50c each, 3 for \$1.25
- ‡**Longifolia Subsessilis**, charming summer blooming hardy plant that deserves a place in every garden, large or small; 18 to 24 in. spikes of beautiful blue flowers, July to September; splendid for cutting.
25c each, 3 for 60c
- ***Pectinata Rosea**, a lovely creeper, with silvery foliage and small rose colored flowers ... 20c each, 3 for 50c
- ***Rupestris**, creeping habit deep blue flowers in late May and June..... 20c each, 3 for 50c
- ***Rupestris Alba**, choice variety of the above, with pure white flowers..... 20c each, 3 for 50c
- ***Rupestris Flexuosa**, a lovely pale blue form, very compact growing, April-May flowering 20c each, 3 for 50c
- ***Rupestris Nana**, a tiny gem covered with deep blue flowers in early spring; fine for rockery and between stepping stone walks..... 20c each, 3 for 50c
- ***Rupestris Nana Rosea**, form of above with mauve pink flowers..... 20c each, 3 for 50c
- ***Saxatilis**, neat evergreen creeper, with dark shiny foliage and bright blue flowers in late spring, 4 to 6 in..... 20c each, 3 for 50c
- ‡**Spicata**, deep blue form, blooming very freely almost the entire summer, fine for cutting and garden plant, 18 in. high..... 20c each, 3 for 50c
- ‡**Spicata Alba**, a pure white form of the above.
25c each, 3 for 60c
- ***Spicata Nana**, an attractive dwarf form, growing about 4-6 in. high, blooming freely during summer months..... 25c each, 3 for 60c
- ***Spicata Rosea**, pale pink blooming all summer; 15 to 18 in..... 20c each, 3 for 50c
- ‡**Spicata Rubra**, a fine, new variety with showy deep pink flowers. June and July flowering. 18 inches high.
35c each, 3 for 90c
- ***Trehani**, very distinct, with golden foliage and blue flowers 20c each, 3 for 50c
- ***True Blue**, 12 in. high, a lovely deep blue variety; May June 20c each, 3 for 50c

*—Alpines or Rock Plants.

‡—Cutflower Varieties.

***VIOLA—Tufted Pansies**

- Jersey Gem**, we offer the true stock of this popular bedding viola. 20c each, 3 for 50c
- Purple Glory**, we consider this new variety, the finest of them all; it stands the hot weather better than any variety we know of. The attractive large rich purple flowers are freely produced from early spring to fall, rather compact in growth 25c each, 3 for 60c
- Yellow Queen**, a beautiful large yellow, one of the best yellow. 25c each, 3 for 60c

VIOLA ODORATA—Sweet Violet

- *Prince of Wales**, rich deep purple flowers of large size. 20c each, 3 for 50c
- *Double Russian**, very sweet scented double flowers, best planted in shade 35c each, 3 for 90c
- *Rosina (The new pink fragrant Violet)**, lovely pink and rose shades, blooming freely in the spring and again in the fall; shade. 25c each, 3 for 60c

YUCCA—Adam's Needle

- *Variegata**, the foliage is golden variegated, resembling the greenhouse pandanus, handsome as a specimen plant or grouping effect, white flowers. 35c each, 3 for 90c

Hardy Garden Lilies

Strong Blooming size Bulbs

The following selection represents some of the finest Lilies grown. Practically all of them will grow very nicely in ordinary garden soil. By planting few, each, of this selection you will have lilies blooming from May to frost; all are fine for cutting.

- *Amabile**, a rare species seldom over 18 in. high, pretty recurving flowers of a brilliant tone of orange-scarlet, fine for rockery or border; June flowering. 30c each
- Henryi**, a splendid garden Lily; the flowers are rich, deep orange-yellow, 5 to 8 ft. high, September flowering. 30c each, 3 for 75c
- Phillipinense Formosanum**, long graceful trumpet flowers in September and October; the flowers are pure white with pale emerald-green throat. 25c each, 3 for 60c
- Regale**, the popular Royal Lily. 20c each, 3 for 50c
- Speciosum Rubrum**, a well known garden Lily with rich ruby-carmine margined white flowers, August-September. 30c each, 3 for 75c
- Superbum**, a beautiful American lily bearing many recurving flowers, orange-yellow spotted in the center; late July flowering, 3 to 5 ft. 30c each, 3 for 75c
- *Tenuifolium**, a lovely small lily with many scarlet flowers during late May and June 20c each, 3 for 50c
- *Tenuifolium Golden Gleam**, a pure apricot-yellow form of the above. 20c each, 3 for 50c
- Tigricum**, the well known Tiger lily 20c each, 3 for 50c
- *Umbellatum Orange**, one of the finest early flowering lilies, large erect flowers of beautiful light orange-red, blooming very freely during May and June, 2 ft. high. 20c each, 3 for 50c

Try few of the New Giant Day Lilies

Hardy Amaryllis—Magic Lily

This bulb, also known as *Lycoris Squamigera*, is a native of Japan and one of the most interesting members of the Amaryllis family. It produces attractive green foliage in the spring which disappears in mid-summer. About a month later as if by magic, the flower stock appears, bearing a cluster of 7 to 12 fragrant lily-shaped flowers of delicate lilac-pink, shaded blue. Perfectly hardy in the northern states and may be left in the ground year after year unmolested. . . . \$1.00 each

Roses

EVERBLOOMING HYBRID TEA ROSES

All these roses listed have been selected from a large collection of varieties tested in our own rose garden. All the following varieties have been under my personal observation all summer through. These varieties have been selected for; freeness of bloom, healthy vigorous growth and more disease resistant than any others, therefore, you can order safely any of the roses listed, which to our opinion are outstanding in every respect.

Fall Planting—

We strongly recommend fall planting of field grown roses. Rose experts will tell you that by planting your roses in the fall they will become well established in the ground before spring, the result is an early start, more vigorous growth and strength, and more and better blooms. Wise rose lovers know, too, that it is best to plant only the strong two year, No. 1 field grown plants, and that the kind of plants we handle. We do not waste time with any second or third grade stock nor will you if you have ever tried them once.

Prices on following standard varieties are: 65c each; \$6.75 per doz; \$50.00 per 100.

Yours or our selection, 1 each of any 12 varieties listed below at \$6.75 delivered. 3 each of any 12 varieties, 36 plants in all for \$18.00.

Fall delivery on roses will start about November 1, and continue until the ground freezes. Spring delivery will start March 1, to April 10. After April 10, we will send out only pot grown plants. Place your order early and be sure of getting what you want.

Caledonia. Flowers white, large, double, high centered.

Condessa de Sastago. Double blooms of two-toned coppery pink inside and golden on outside of petals.

Dame Edith Helen. The flowers resemble a perfectly shaped bright pink Francis Scott Key. The most perfumed of all pink Roses.

E. G. Hill. Great massive blooms of deep maroon, velvety on inside, very fragrant.

Editor McFarland. Long pointed pink bud with a glow of amber and a paler edge. Fine for cutting.

Etoile de Hollande. The finest and most fragrant dark red Rose for general purposes.

(Roses—Continued on next page)

ROSES—Cont.

- Federico Casas.** Coppery pink and orange. Continuity of bloom on erect, firm stems makes this an outstanding rose in our show Rose-garden. It is nearly the same color combination as Talisman, but much harder and better bloomer.
- Joanna Hill.** Very double bloom with Indian-yellow center surrounded by gold buff petals.
- Kaiserine Auguste Viktoria.** The standard, double pure white bedding rose.
- Margaret McGredy.** Brilliant red petals in hinges of deep gold. Plant upright. Seldom out of bloom.
- Max Krause.** Probably the most yellow Rose for outdoor use—A gold that stays gold. Long bud and cup formed bloom of great substance freely borne on a long stem. Foliage leathery and unusually resistant to Rose troubles.
- Mrs. Charles Bell.** A sport of Radiance showing all the vigor and stamina of its parent variety. The blooms are a lovely shell pink shaded with soft salmon.
- Mrs. Henry Morse.** Flowers bright pink, silvery shadings.
- Mrs. Pierre S. DuPont.** Buds are reddish gold, opening into beautiful yellow flowers.
- President Plumecocq.** Here we have a rose with unusual color. Coppery yellow, ovoid buds open to large, cupped blooms of coppery buff with an overflow of deep salmon, blooms through the entire season.
- President Herbert Hoover.** Maroon, orange and gold.
- Radiance.** Large, brilliant rose-pink blooms.
- Red Radiance.** A bright rosy red form of Radiance.
- Rouge Mallerin.** Scarlet. Pointed buds of brilliant red open to 3½ inch blooms of glowing scarlet, the deep pile on the petals making them look like pieces of rich scarlet velvet. Rich old damask perfume.
- Sister Therese.** Yellow. Long-pointed buds are chrome-yellow, heavily marked with carmine; the open flower is rich daffodil-yellow and holds its color well. Sweet-briar fragrance. The blooms come freely on splendid cutting stems. You can always recognize this Rose from its habit of forming sturdy, 3 ft., upright canes which are topped with a lighted candelabra of five or more burning yellow blooms.
- Souvenir de Claudius Pernet.** The old stand-by for a real yellow rose.
- Souvenir de Mme. C. Chambard.** Flowers are large, semi-double cupped, fragrant; outer petals rich rose-red; inner petals flashy deep rose-pink, with golden glow at center. Growth vigorous, upright.
- Talisman.** Fragrant bloom of glowing golden yellow, stained with copper-red and orange on the inside of petal.
- Thomas A. Edison.** Two-toned pink. A big, clean, sparkling pink rose which thrives on heat; the hotter the weather, the more beautiful the flowers. The blooms are large, fully double, fragrant, and there are two shades of pink concerned, silver pink on one side of the petals and deeper pink on the other side.

(Roses—Continued on next page)

ROSES, Cont.

PATENTED EVERBLOOMING HYBRID TEA ROSES

Alezane (Plant Patent No. 116). Bud urn shaped, large reddish brown; flowers cupped opening to sorrel, unfurling from sorrel to rich apricot and reverse of petals sorrel striped with yellow veins. Petals not affected by hot or wet weather. Growth very vigorous, upright branching dark green foliage. An extremely interesting and striking novelty which has attracted much attention wherever shown. Starts blooming very early..... \$1.25 each

Amelia Earhart (Plant Patent No. 63), New. Large avoid bud, cream with bushes; flowers very full, graduating from a deep yellow center to an outer collarette of large cream petals with a blush overtone; extremely fragrant; strong grower; free bloomer; leathery dark green foliage. A worthwhile addition. \$1.25 each.

Carillon (Plant Patent No. 136). The Singing Rose! Always cheerful and gay! A much improved Mme. Edouard Herriot, and of easier culture. To be appreciated at its full value, Carillon should be planted in groups. The plant is branching and spreading, thus ideal to blanket a bed. The bud is orange-scarlet, long pointed and opens up to a lively coral-flame. 85c each.

Countess Vandal (Plant Patent No. 38). The Rose of Roses! "Countess" has been enthusiastically received by rose lovers everywhere. Its long pointed bud, its distinctive shadings of coppery-bronze suffused with soft gold and its form are a continuous movie developing new beauty at all times during its long life. A leading seller among Hybride Tea Roses. \$1.00 each

Crimson Glory (Plant Patent No. 105). Buds are long pointed; flowers large, semi-double, full, deep velvety crimson; intensely fragrant and very lasting; foliage, abundant and leathery; spreading and bushy grower; continuous bloomer. A very fine dark red rose. \$1.00 each

Eclipse (Plant Patent No. 172). The international sensation of the year, awarded prizes in Rome, Paris and other test gardens. The long stream-lined bud, enhanced by ornamental sepals is of rich gold without shading. Petals are large and tough, but not numerous, averaging 20 to 25, with more in the autumn. Speaking of this Rose, a connoisseur remarked, "Elegance is preferable to opulence." The name Eclipse came about because the seedling bloomed for the first time on the day of the total eclipse..... \$1.25 each

Feu Pernet-Ducher (Plant Patent No. 103). An exceptionally fine rose with creamy orange buds heavily marked with carmine. They open slowly into very deep yellow blooms with lighter edges. Their loveliness is enhanced by a rich fruity fragrance. The tall bushy plants produce an abundance of magnificent blooms \$1.00 each

(Roses—Continued on next page)

Be sure to order one or more
Butterfly Bush Charming

Everblooming Hybrid Tea Roses—Cont.

- Golden Main** (Plant Patent No. 254). The purest yellow rose of the undiluted clean glistening yellow of a dandeion in the morning dew. Blooms are medium large with many but small petals giving the bloom a rounded form of the peony. A very ornamental plant of great floribundity.....\$1.25 each
- Gloaming** (Plant Patent No. 137). A cut-flower variety which has proved a "winner" wherever grown. Its large buds are carried on long rigid stems amply clothed with handsome foliage. The plant is vigorous and branching, fairly tall growing. Bloom is of unusual coloring—fawn orange in the bud and the large full blooms are of a peculiar pink overlaid with salmon.....\$1.00 each
- McGredy's Triumph** (Plant Patent No. 190). Geranium red flushed orange, gradually deepening to rich orange at base. The color tone is even throughout, reminding one of a brilliant ripe strawberry blushed scarlet and orange. The flowers are very large, full and of perfect shape. In addition to the brilliant and unusual coloring of the flowers the extraordinary freedom and habit of growth is something far from the every day rose. The stems are dark mahogany red, and the foliage is extra large, dark, reddish bronze in color, and of great beauty.....\$1.25 each
- Mme. Cochet-Cochet** (Plant Patent No. 129). Long. pointed, large buds developing into very large semi-double, slightly fragrant flowers of a beautiful copery rose-pink tinted with coral. A vigorous variety of upright growth blooming abundantly over a long season. Awarded Gold Medal.....\$1.00 each
- Mrs. Francis King** (Plant Patent No. 253). A hybrid of Nutkana and related to Leonard Barron, first of that breed. Very large and full rose, first tinted cream and ivory, eventually turning to white. Something different from the usual rose.....\$1.00 each
- Rex Anderson** (Plant Patent rights reserved). Handsome buds and roses of great size. Cream turning pure white with age. Good form of the usual McGredy standard. Blooms are several on each stem and come in rapid succession. The plant is very vigorous with handsom dark green foliage.....\$1.50 each
- Rome Glory** (Patent applied for). A cross of Dame Edith Helen and Sensation. This rose was bred with the objection of raising a red Dame Edith Helen and the objection has been reached. A most robust and vigorous plant, much more winter-hardy than most Hybrid Teas, producing in quick succession long stems bearing large crimson-red blooms. The flowers are long lasting on the plant or when cut and are not affected by dry or wet weather. We have no hesitation in proclaiming Rome Glory the finest red rose yet introduced.....\$1.50 each
- Signora** (Plant Patent No. 201). This rose from the land of sunshine and Chianti wine, is a real masterpiece, in both plant and bloom. Long bud of warm burnt sienna opening to a lighter hue toward mandarine. The plant is tall growing with every bloom on a long stem. Foliage is handsome. Indispensable to those who grow roses mainly for cutting.
\$1.25 each

(Roses—Continued on next page)

Everblooming Hybrid Tea Roses—Cont.

R. M. S. Queen Mary (Plant Patent No. 249). The blooms are of a glorious combination of vivid shades, bleeding rich glowing salmon with an exquisite pure pink and with an orange base. They are full and freely produced on strong vigorous plants, delicately perfumed.....\$1.50 each

Texas Centennial (Plant Patent No. 162). A sport of President Hoover with all its wonderful plant qualities. Color is blood red toning to cerise red in center. Most striking new red of unusual color....85c each

Warrawee (Plant Patent No. 140). Shell-pink. Long-pointed, salmon pink buds open to 4 inch or large flowers of exquisite shell-pink with a slightly darker reverse. The bloom, when fully open, looks like a glorified Mme. Butterfly. It has the delightful spicy fragrance of the old clove pinks. The plant has all the health, vigor, and freedom of bloom of Radiance. The blooms come singly on erect, firm stems, with few thorns, which makes this one of the few shell-pink roses for cutting.....\$1.00 each

CLIMBING ROSES

Four outstanding varieties of patented Climbing Roses

Blaze (Plant Patent No. 10). Acclaimed by the nation as the only hardy everblooming scarlet climber. Blaze combines the vigor, beauty and hardiness of Paul's Scarlet Climber with the everblooming qualities of a favorite ever-blooming Rose.....\$1.00 each

Doubloons (Plant Patent No. 152). A hybrid of our native Rose Setigera. Clusters of very large cup-formed, saffron yellow blooms, opening one after the other, thus prolonging the season. Long heavy canes. Undoubtedly the best yellow climber to date. Has the tendency to repeat in midsummer... \$1.50 each

The New Dawn (Plant Patent No. 1). A counterpart of the beautiful and popular flesh pink rose, Dr. Van Fleet, embodying all its fine qualities but having the added advantage of blooming perpetually throughout the season. It is a sport from Dr. Van Fleet which is universally acknowledged as one of the best and most popular American Climbing Roses. The New Dawn is equally valuable having the same long, pointed, flesh pink buds and double flowers but the blooms are produced continuously throughout the summer and fall months which increases its value considerably. As the flowers are carried on fine, long stems it makes as lovely a cut flower as a garden Rose..... \$1.50 each

Princess Van Orange (Plant Patent No. 106). A dazzling new color in climbing roses. Branches literally covered with masses of brilliant orange-scarlet flowers, imparting an unusual radiant glow. A vigorous grower and exceptionally hardy. Occasionally repeats in fall.....\$1.00 each

Standard Climbing Roses

American Pillar. Flowers single, brilliant pink with a eye, borne in clusters..... 65c each; \$6.75 per doz.

Climbing American Beauty. Large buds and flowers of bright purplish crimson 65c each; \$6.75 per doz.

(Roses—Continued on next page)

Standard Climbing Roses—Cont.

Climbing Red Radiance. Bright rosy red, everblooming.
65c each; \$6.75 per doz.

Dr. W. Van Fleet. Large flowers of exquisite pale pink on fine, long stems.....65c each; \$6.75 per doz.

Jacotte. Flower large, semi-double, coppery yellow, tinted coppery red.....65c each; \$6.75 per doz.

Max Craf. Large, simple, shining pink flowers. Fine for covering rocks, etc.....65c each; \$6.75 per doz.

Staechelin. Hardy, vigorous grower. Crimson buds opening to large, perfumed pale pink flowers.
65c each; \$6.75 per doz.

Violette. An improvement on Veilchenblau. Flowers deep violet, borne in large clusters.
65c each; \$6.75 per doz.

Yellow Rambler. Yellow flowers in large clusters.
65c each; \$6.75 per doz.

If you are interested in any other varieties of roses not listed here, we will be glad to get them for you. Our connections with many of the leading rose specialists in the country enable us to get any rose grown, the latest new ones as well as old varieties at standard prices. We will welcome your inquiries.

BULBS FOR FALL PLANTING

We can supply all the leading varieties in Tulips, Hyacinth, Crocus, Narcissus and other miscellaneous bulbs. We will be glad to quote you prices on your needs.

COMPLETE LINE OF NURSERY STOCK

In addition to the few varieties of shrubs and evergreens we grow and offer here, we have made arrangements with some nurseries that specialize in growing trees, shrubs, fruit trees and small fruits, rare and unusual shrubs and evergreens, to supply us with any stock that we may need. We will be glad to quote you on any hardy ornamental plants or fruits that you may be interested.

CHOICER GERMAN IRIS AND PEONY

We have several fine varieties in small quantities, if you are interested let us quote you on your need.

Dwarf Evergreens, Shrubs, Etc.

For The Rock Garden

A few of the choicest and new Evergreens, Shrubs, Vines, Trees, Etc., for rock gardens and other special uses. Try a few of these choicer ornamentals; and make your garden more beautiful and interesting.

In addition to the following varieties you will also find few other shrubs listed alphabetically in the preceding pages.

Explanation on following prices: shrubs, trees, evergreens, etc., are usually sold by sizes, such as, 12-18 in., 18-24 in., 2-3 ft., etc., and are priced accordingly, so when you notice any of the varieties listed such as, 50c to \$1.50 each, the 50c size would be the small and the \$1.50 price would be for the largest size we can offer, however, you can order in between, say 75c size, \$1.00, \$1.25, etc. If you wish further explanations or information, we'll gladly furnish it to you without any obligation whatever on your part.

ABELIA Grandiflora (Bush Arbutus). This is one of the very best shrubs that we know of. Can be pruned freely, thus good for hedges as well as for planting singly or in groups, and will add a touch of beauty all the year around. Is evergreen with glossy, dark green foliage turning a beautiful shade of bronze in winter. Flowers are funnel-shape, white tinted with pink, sweet scented and borne in clusters from May until late autumn 35c to \$1.00 each

ABELIA Grandiflora Sherwoodi. A dwarf type of *Abelia Grandiflora*. The bush grows about one-half as large with flowers and foliage in about same proportion. We think this will fill a long felt need.....50c to \$1.00 each

ABIES Concolor (White Fir). A stately, dignified Fir with sage-green foliage. Valuable as a lawn specimen or for border planting.....\$1.00 to \$2.50 each

ACER Palmatum Atropurpureum (Japanese Red Leaf Maple). Foliage and shoots colored bronzy crimson, the summer shoots being as well colored as those of early spring...\$1.00 to \$2.50 each

ACER Palmatum Dissectum Atropurpurea (Threadleaf Maple). A purple leaved form of *Dissectum*. Rare. 15 to 18 in...\$2.00 each

AMPELOPSIS Veitchi (Boston Ivy). A hardy climbing vine. Clings to the smoothest surface of rock or wood. The glossy leaves assume in the autumn, the most beautiful tints of scarlet and crimson. Best vine for brick walls.....40c each

AMYGDALUS (Flowering Almond). A small showy shrub producing an abundance of small double flowers in early spring. Can supply pink.....50c each

ARBORVITAE Berckman's Golden (*Biota Aurea Nana*). One of the most showy of all the *Arborvitae* family. The color is an unusually attractive bright golden green. Very compact, rounded cone shape. Popular for urns, tubs, boxes and general planting. 75c to \$2.00 each

ARBORVITAE Little Gem (*Recurva Nana Arborvitae*). Extremely dwarf, rare and interesting. A "Gem" in any collection. Compact, globular with dark green foliage.....75c to \$1.50 each

ARBORVITAE Rheingold (*Ellwangeriana Aurea*). A very pretty dwarf, golden-yellow with fine feathery foliage.\$1.00 to \$1.50 each

AZALEA Amoena Coccinea. A new hardy Azalea, equally as hardy as *Amoena* while in coloring it is a brilliant fiery red. 50c to \$1.50 each

AZALEA Coral Bells. Beautiful shell-pink, shading somewhat deeper at center. Free flowering and dainty. Small foliage. An early bloomer.....50c to \$1.00 each

AZALEA Hinodegiri. Flowers brilliant scarlet, foliage rounded and deep green. The flowers are produced so profusely as to completely cover the plant. Probably the most popular Azalea grown. 35c to \$2.00 each

AZALEA Hinomayo. Flowers a beautiful soft pink. Resembles *Hinodegiri* in habit of growth, but leaves are smaller in size and a lighter green. We consider this one of the best pinks. 50c to \$1.50 each

- AZALEA Pink Pearl.** A beautiful salmon-rose, shading lighter to the center. Produced in dense clusters.....50c to \$1.00 each
- AZALEA Salmon Beauty.** Large flowers of a beautiful shade of salmon-pink. Foliage light green.....50c to \$1.00 each
- AZALEA Yayegiri.** Beautiful salmon-red. Narrow intense green foliage. Very showy attractive.....50c to \$1.00 each

Prices of the following: 65c to \$1.50 each.

- AZALEA Atalanta.** Immense purple flowers; plants strong growers.
- AZALEA Betty.** Brilliant rosy-pink with a trace of orange flowers.
- AZALEA Carmen.** A large rose colored bushy growing variety.
- AZALEA Mary.** A very distinct deep pink of large size.
- AZALEA Mignon.** A delicate rose color of medium bushy habit.
- AZALEA Purple King.** A good purple flower; good grower.
- AZALEA Thais.** A brilliant pink; making compact bushy plants.
- AZALEA Calendulacea.** The flaming color of the flowers is unequalled by any other spring flowering plant. They run from light salmon to deep golden orange and scarlet and usually appear before the foliage is fully developed the latter part of May or early June.....\$1.00 to \$2.00 each
- AZALEA Indica Alba (Ledifolia Alba).** Very large white flowers; good grower and profuse bloomer. Hardy in north.
50c to \$1.50 each
- AZALEA Mollis.** Various shades of flowers appear before the leaves in early spring. Deciduous.....50c to \$1.50 each
- AZALEA Schlippenbachii.** The flowers are sweet scented, pure bright pink and about three inches across. In autumn the leaves turn yellow, orange and crimson before they drop. Hardy in New England.....50c to \$1.00 each
- BERBERIS Julianae.** An evergreen Barberry with narrow-toothed spiny leaves that on the new shoots are several different shades of green. A very valuable evergreen shrub.....25c to \$1.50 each
- BERBERIS Thunbergi (Japanese Barberry).** Dwarf bushy habit; stands formal pruning; numerous small leaves densely cover the thorny twigs. Makes a compact impassable hedge, important for shrubbery groups and foundation plantings. Autumn brings scarlet foliage and fills the branches with scarlet berries.
10c to 25c each
- BERBERIS Red or Purple Leaf Barberry (Berberis Thunbergi Atropururea).** This is the same as the green leaf except for the leaves are a reddish purple all the season.....25c to 50c each
- BERBERIS Tricanthophora.** Three spine Barberry. 3 in. pot plants.
35c each
- BERBERIS Warty Barberry (Berberis Verruculosa).** Charming, semi-dwarf, slow growing species. Leaves dark glosssy green, whitish beneath; flowers primrose-yellow.....25c to 75c each
- BRUCKENTHALIA, Spiculifolia (Spike Heath).** European heath-like plant not more than 8 inches high. Rosy-red flowers in June.
35c each
- BUXUS Suffruticosa (Old English Boxwood).** Possibly no other evergreen shrub has been so much used for marking boundaries of formal garden, to outline flower beds, for low hedges, and for other ornamental purposes. This is the kind you will find in the formal gardens at Mt. Vernon (Washington's home).
4 to 6 in.....25c each, 3 for 60c, 12 for \$1.75, 100 for \$12.50
6 to 8 in.....30c each, 3 for 75c, 12 for \$2.00, 100 for \$15.00
- CALYCANTHUS Floridus (Sweet Shrub).** The native sweet or brown shrub. Flowers double, chocolate-colored, very fragrant. Blooms in early April and lasts for several weeks.....40c each
- CERCIS Canadensis (Redbud).** A native small tree with light green foliage. Before the leaves appear the stems are covered with a profusion of reddish-purple flowers.....75c each
- CERASUS (Japanese Flowering Cherries).** 4 varieties.
\$1.50 to \$3.00 each
- CHAMAECYPARIS Obtusa Crippsi (Cripps Golden Retinospora).** A very conspicuous golden type of Hinoki Cypress, attaining a height of 8 feet. Has fern-like foliage.....\$1.00 to \$3.00 each
- CHAMAECYPARIS Obtusa Nana (Dwarf Hinoki Cypress).** A real dwarf. Dense, compact, dark green foliage of the richness of the best, unchanging throughout the year. The choicest of the dwarf Obtusas.....\$1.00 to \$2.50 each
- CHAMAECYPARIS Squarrosa Pygmaea (Globe Silver Retinospora).** A miniature form of the preceding, with small silver colored foliage. 6 to 8 in.....\$1.50 each

CLEMATIS (Large Flowering)

Very popular climbing plants doing well in light, fertile, well-drained loam soil. Grows more than 10 feet high.

Duchess of Edinburgh. Bears a profusion of elegant, large, double, white blooms.

Henryi. The lovely large creamy white flowers are magnificent.

Jackmani. A universal favorite on account of its rich purple blooms.

Mme. Edourad Andre. Splendid large flowers of a bright rosy carmine color.

Any of the above, 75c each.

Japanese Virgin's Bower. A vigorous and showy climber with small dense foliage of a cheerful green color. During August and September the vines are covered by a great profusion of graceful pure white blooms which have a most deliciously sweet fragrance.

35c each, 12 for \$3.50

CORNUS Florida Rubra (Pink or Red Flowering Dogwood). Identical with the white variety except the flowers are pink to red.

\$1.25 to \$4.00 each

COTONEASTER Apiculata. A red berried species allied to and similar to *Rotundifolia*. From pots.....75c each

COTONEASTER Divicata (Spreading Cotoneaster). Handsome, compact shrub, with small glossy green leaves and ovoid scarlet berries. One of the best for autumn color foliage.....50c each

COTONEASTER Salicifolia (Willowleaf Cotoneaster). Semi-evergreen, spreading habit. White flowers in May and June; red fruit. Grows to 6 ft. high. Small potted plants.....30c each

DESMODIUM Penduliflorum (Bush Clover). Dies to ground in winter but reappears in spring, with shoots 3 to 4 ft. high, bearing September, sprays of rose-colored peashaped blooms.60c each

ELSHOLTZIA Farquhari (Mintshrub). This plant has the nature of the well known *Buddleia* growing about 24 inches high and producing large spikes of bright pink flowers in late summer and early fall. The entire bush, flowers and foliage, is sweetly scented. In addition to being conspicuous in the landscape, the plant is also outstanding for cutting and deserving of much more attention than ordinary plant material. 3 in. pot plants, spring delivery.....40c each

ENKIANTHUS Campanulatus (Redvein Enkianthus). This charming native of Japan should be in every garden. Masses of bell-shaped flowers, yellowish or pale orange, veined darker red on pendulous stalks in May. One of the handsomest ericaceous plants; foliage turns brilliant red in Autumn. Grows to 8 to 10 feet tall.....50c to \$1.50 each

HARDY HEATHER—*Erica* and *Calluna*

These choice evergreen shrubs require acid soil where soil conditions are not present. We suggest a thorough mixture of about half sand and peat moss working it in thoroughly with your present soil, then plant your plants and water well. They will get along nicely in full sun or partial shade, they also, make fine plants to plant with other evergreen shrubs, such as *Rhododendrons* and *Azaleas*.

CALLUNA Vulgaris (Scotch Heather). An upright growing variety covered with rosy lavender flowers during July and August, attaining a height of 2 to 3 ft.

CALLUNA Vulgaris Alba. A compact and dwarf white flowering form of the above.

CALLUNA Vulgaris Aurea. Golden foliage with lavender flowers.

CALLUNA Vulgaris Alporti. Bright crimson variety, a very distinct variety.

CALLUNA Vulgaris Rubra. Low spreading bush with rosy carmine flowers.

ERICA Carnea Rosea. One of the loveliest of all early spring flowering *Ericas*, forming spreading mats. The bush very seldom exceeds 8 inches in height and is covered with rosy pink flowers in March and April, very hardy and free bloomer. An outstanding little shrub for your rockery.

ERICA Vagans. A glorious summer flowering species with purple flowers. 12 inches high.

EUONYMUS Alatus (Winged *Euonymus*). Yellowish flowers in May and June; leaves turn brilliant crimson color in autumn; corky wings on branches. Very beautiful.....40c each

EUONYMUS Alatus Compacta. A new variety, dwarf and very compact, a choice little shrub. 15 in.....50c each

FAGUS Sylvatica Riversi (Purple-Leaf Beech). A popular purple-leaf type of the European Beech, 12 to 15 in.....\$1.25 each

FORSYTHIA Intermedia Spectabilis (Showy Border *Forsythia*). Bears a profusion of bright yellow flowers in April before the leaves unfold.....25c to 50c each

- FRANKLINIA Alatomaha** (Gordonia Alatomaha). An exquisite tree indeed! It is most beautiful in its general landscape effect, with the first flowers opening in mid-August. The trees, even when very small, are abundantly starred with them until hard frosts. The young leaves unfold a charming, delicate, bronzy red; at maturity they are 5 to 6 inches long by about one-third as wide, a rich dark green with red veining. In autumn the whole tree blazes with rich, warm color. The flower buds are balls covered with whitish-green satin. When as large as marbles they unfold; the guard petals emerge; they are satiny snow-white, elaborately frilled and pleated. The snowy, frilly chalice, 3 inches in diameter and of piquant irregularity, holds a sumptuous mass of the richest orange-gold stamens and breathes forth a delicate balmy fragrance.....\$1.00 to \$2.00 each
- FUCHSIA Magellanica** (Hardy Fuchsia). Most interesting shrub. The Ruby-red Pedent flowers are freely produced all summer and fall. It is easily grown in shade or sun, and has proven entirely hardy in New York Botanical Garden.....35c each, 3 for 90c
- HAMAMELIS Vernalis**. Flowers fragrant, small and more freely produced than in any other species. Proves very popular as it becomes known. We can also furnish this Hamamelis with red flowers. 18 to 24 in.....\$1.50 each
- HYDRANGEA P. G.** (Peegee Hydrangea). One of the most popular shrubs; blooms from August to autumn, after which the blooms may be dried for winter bouquets. Immense panicles of bloom, white at first, but gradually turning to rose color. Will blossom same year they are set out.....35c each
- HYDRANGEA Otaksa**. A splendid Hydrangea with bright glistening green foliage and large trusses of blue or pink flowers. Strong grower.....50c each
- ILEX Aquifolium** (English Holly). Bright rich red berries on plants with foliage a glistening green which looks as if it had been varnished. The berries are much larger than those of the American Holly. Hardy here but not dependably hardy farther north. \$1.25 to \$3.00 each
- ILEX Crenata** (Japanese Holly). The small leaved Japanese Holly is a slow growing shrub, seldom exceeding a height of 5 feet. Leaves dark, glossy green; small black berries..75c to \$1.50 each
- ILEX Crenata Convexa** (Buxifolia or Bullata). A slow growing form of Ilex Crenata with small box-like leaves which appear as though they have been varnished. Good for rock-gardens and other low purposes. 8 to 10 in.....50c each
- ILEX Opaca Howard**. Distinctive type of the American Holly bearing deeper and darker green foliage than other varieties of the Opaca group. A heavy bearer of deep red berries produced in abundant clusters. The rich shiny leaves of this variety are practically without spines. 18 to 24 in. grafted plants. 75c to \$2.50 each
- ILEX Pernyi**. From China. Shrub to 10 ft. Leaves crowded with one to three rigid spines on each side, the upper part the largest but shorter than the terminal spiny point, dark green and lustrous above and one we like very much. 3 in. pot plants....75c each
- ILEX Pernyi Veitchi**. A new variety from England. Differs from Pernyi in that it has larger leaves and is probably a stronger grower. We recommend it. 3 in. pot plants.....75c each
- JASMINE Nudiflorum** (Winter Jasmine). A very graceful, hardy, drooping Chinese shrub with dark green bark; leaves dark green; bright yellow flowers freely produced in early January and continuing for some time. Hardy at New York.....50c each
- JASMINE Stephanense**. A new hardy pink Jasmine. Semi-climbing hybrid, hardy at Philadelphia. Fragrant, pale pink flowers, produced in clusters in late April.....50c each
- KOLKWITZIA Amabilis** (Beauty Bush). One of the finest of the newer shrubs, producing long sprays of graceful foliage. The flowers are a delicate pink, similar in shape to those of the Weigelia, but much smaller. Although a rapid grower, it does not flower profusely until it becomes thoroughly established. 2 to 3 ft.....75c each
- LAGERSTROEMIA Indica** (Crepe Myrtle). This is one of the most beautiful Southern shrubs. Blooms from midsummer to cold weather. We can supply 4 colors.....75c each
- LEUCOTHOE Catesbaei** (Andromeda Catesbaei). A very valuable evergreen shrub for planting under trees and on borders of woodlands and in shady places. Flowers are borne in drooping racemes and are fragrant.....50c to \$1.50 each
- LIGUSTRUM Lucidum** (Glossy Privet). Dwarf; large thick leaves dark shining green. Heads of fragrant white flowers in spring are followed by blue-black berries through the winter. Evergreen. 50c to \$1.50 each

- LONICERA Sempervirens Magnifica.** A magnificent new Honeysuckle with coral colored blooms of large size and beautiful blue-gray-green foliage. The brilliant and cheerful flowers freely produced. Truly a gem.....85c each
- LONICERA Tellmanniana** ("Golden Giant" Honeysuckle). A vigorous, hardy climber with lovely, large, tubular blooms of an intense golden-yellow tipped with bronzy-red. Blooms profusely during June and is perfectly hardy.....85c each
- MAGNOLIA Lennei.** Flowers rose-purple outside, rosy-white inside. Wide, spreading habit. Vigorous, large, late flowers. 3 year old plants.....\$1.50 each
- MAGNOLIA Soulangeana.** One of the most beautiful of all flowering trees and is the Magnolia most generally planted. It makes a small, many trunked tree with gorgeous shining foliage; in early spring it is covered with enormous pinkish-white flowers, more or less purplish on outside; slightly fragrant..\$1.50 to \$4.00 each
- MAGNOLIA Stellata** (Halleana). A distinct and charming slow growing Japanese shrub; flowers profuse, pure white, semi-double fragrant, in April, making the leafless branches appear as though loaded with snow. 3 year old plants.....\$1.50 each
- MAHONIA Aquifolium** (Oregon Hollygrape). Holly-like leaflets, yellow flowers in late winter followed by dark blue frosted berries. Leaves turn crimson, bronze and orange during fall. Grows to 3 feet high. Prefers partial shade. 15 to 18 in.....75c each
- MALUS Arnoldiana** (Arnold Crab). One of the most beautiful varieties, originating at the Arnold Arboretum. Very large rose-colored flowers, turning to white.....75c to \$2.00 each
- MALUS Eleyi.** Upright habit, young foliage purplish red. Deep red flowers and fruits.....75c to \$2.00 each
- MALUS Floribunda Atrosanguinea.** Flowers almost crimson. A taller grower than most Crabs.....75c to \$2.00 each
- MALUS Spectabilis** (Chinese Flowering Crab). Has beautiful coral-red buds paling to delicate rose when fully expanded; exquisite fragrance; nice habit, very hardy.....75c to \$2.00 each
- OSMANTHUS Aquifolium** (Tea Olive). Holly-like, oval spiny-toothed leaves; fragrant white flower clusters. Prefers rich soil and some shade. Strong pot plants.....50c to \$1.00 each
- PHILADELPHUS Virginal.** Undoubtedly the finest double flowered variety, delicately scented.....50c each
- PICEA Bicolor** (Alcocks Spruce). A handsome, Japanese tree, the stiff leaves are conspicuously marked with two white stomatic lines.....\$1.50 each
- PICEA Excelsa Conica** (Arrowhead Norway Spruce). Compact growing, cone shaped pyramid, 12 to 15 in..... \$2.50 each
- PICEA Excelsa Maxwelli.** Low, rounded, dense form. Leaves a bright green.....\$1.50 each
- PICEA Excelsa Nidiformis.** A dwarf form with densely crowded, spreading branches.....75c to \$1.50 each
- PICEA Glauca Conica** (Dwarf Alberta Spruce). Very rare. A compact cone-shaped variety of slow growth and very dense foliage. Splendid subject for rock-gardens and formal effects..\$2.50 each
- PICEA Orientalis** (Oriental Spruce). A handsome, densely branched pyramidal tree, distinguished by its small leaves. Stands exposure well.....\$2.50 each
- PICEA Pungens Kosteri** (Koster's Blue Spruce). Beautiful as a single specimen on the lawn; especially striking when planted with other evergreens where its rich color is brought out to perfection. Our plants are the true grafted Koster's, of extra blue color, of magnificent form as their thick branches climb in even layers from a broad base to a tapering crown, with heavy lustrous foliage reflecting the most glistening silver and blue tones. 12 to 15 in. \$1.25 each, 3 for \$3.25; 18 to 24 in. \$2.00 each; 24 to 30 in. \$3.00 each; 30 to 36 in. \$4.00 each; 36 to 42 in. \$5.00 each.
- PIERIS Japonica** (Japanese Andromeda). One of the most beautiful dwarf, broad-leaved evergreens, with bright green leaves and drooping racemes of waxy-white flowers which make a beautiful contrast with the green foliage. A plant that is distinctly different and of great beauty, which will add dignity and charm to any garden. 12 to 15 in. \$1.00 each, 3 for \$2.65; 15 to 18 in. \$1.50 each.
- PINUS Cembra** (Swiss Stone Pine). From the Alps. A beautiful, comparatively small tree of pyramidal outline. The leaves are in fives and have a somewhat glaucous coloring..\$1.50 to \$3.00 each
- PINUS Koraiensis** (Korean Pine). A beautiful species of N. E. Asia resembling Pinus Cembra. Leaves of a glaucous coloring on account of numerous stomatic lines. 2 ft.....\$2.50 each
- PINUS Mughus** (Dwarf Mounatin Pine). Distinct; of a compact and prostrate habit.....\$1.00 and up

- PINUS Parviflora Glauca** (Blue Japanese White Pine). For a handsome small spreading tree. Leaves mostly in fives, appearing glaucous on account of the conspicuous white stomatic lines. 15 to 18 in.....\$2.00 each
- PINUS Strobilus Nana** (Dwarf White Pine). A globe shaped form of the White Pine. Very slow growing. Scarce. *1.50 to 3.50 ea*
- POLYGONUM Auberti** (Silver Lace Vine). This is a most desirable vine which is just becoming better known. It will make a strong vigorous growth attaining a height of 25 feet. The vines produce a great profusion of foamy white flower sprays during late summer and early fall. It is perfectly hardy and is not troubled by any plant diseases. Does well in either sun or shade. 60c each
- PYRACANTHA Angustifolia**. A species from Yunnan, China. A shapely ornamental shrub covered with bright scarlet berries from August to winter.....50c each
- PYRACANTHA Coccinea Lalandi** (Lalandi Firethorn). A beautiful evergreen variety covered with a profusion of white flowers in early spring, followed by bright orange berries, which hang on all winter.....25c to \$2.00 each
- RHODODENDRON Album Elegans**. A rapid growing tall variety, recommended for backgrounds. Buds and flowers are blush fading to white. Hardy.....\$2.00 each and up
- RHODODENDRON Amphion**. A striking large deep pink flower with pure white center.....\$2.00 each and up
- RHODODENDRON Dr. H. C. Dresselhuys**. A popular, tall growing analine-red that is very much in favor. Very large flower. \$2.00 each and up
- RHODODENDRON Mrs. C. S. Sargent**. A hardy, deep rose-pink of compact habit. Splendid for mass planting..\$2.00 each and up
- RHODODENDRON Roseum Elegans**. In habit this is the best of all the hybrids as every plant is a natural heavy budded, compact globe. Its lavender pink flowers are most attractive. \$2.00 each and up
- RHODODENDRON Racemosum**. This charming dwarf species, with its profusion of small pink flowers, is another example of a shrub the beauty of which is greatly enhanced by mass planting. It is also suitable for the rock garden. Attains a height of about 30 in.....\$2.50 each
- TAXUS Baccata Fastigiata** (Irish Yew). A strictly fastigiate form, with stout crowded upright branches and branchlets; leaves radially arranged around the branches, dark glossy green and more obtuse than in the type. One of the most desirable evergreens of columnar habit for formal gardens. Would not recommend for planting north of Philadelphia, although it is hardy on Long Island.....\$2.50 each and up
- TAXUS Baccata Repandens** (Spreading English Yew). A low form with long wide-spreading branches and dull, bluish-green narrower and longer leaves, partly falcately curved upward. Hardy in New England.....\$1.50 each and up
- TAXUS Cuspidata** (Japanese Yew). For any and every purpose in which evergreens are required some form of the Japanese Yew can be recommended. Perfectly hardy in the coldest parts of New England, and resistant to diseases and insects. Accommodating to an extraordinary degree, withstands shade or full sunshine, dark green at all seasons of the year. Small wonder this plant has been acclaimed Japan's greatest gift to the gardens of America. This is the semi-spreading type growing about as wide as high. 75c each and up
- TAXUS Cuspidata Capitata** (Upright or Tree-form Japanese Yew). This is a selected tree form of the Japanese Yew, otherwise same description as for *Taxus Cuspidata*.....\$1.50 each and up
- TAXUS Cuspidata Nana** (Dwarf Japanese Yew). A shrubby form with spreading branches closely clothed with short branchlets; leaves somewhat shorter and duller than the type; slow growing, compact. Often offered as *Taxus Brevifolia*..\$1.50 each and up
- TAXUS Media Hatfieldi**. A Media hybrid. A compact bush of conical shape with upright branches and radially spreading leaves. This form may take the place of the Irish Yew where the latter is not hardy.....\$3.00 each and up
- TAXUS Media Hicksi** (Hick's Yew). A distinct columnar form with upright branches and radially spreading leaves. Another good substitute for the Irish Yew where that variety is not hardy. The foliage is a bright dark green. Has proved dependably hardy at Boston.....\$2.00 each and up
- TAXUS Cephalotaxus Pendunculata Fastigiata** (Harrington Plum-Yew). This plant grows almost exactly like a fine type of Irish Yew, forming a tall, narrow, compact dark green column with thick, narrow leaves 2 inches long. We especially like this. \$2.50 each and up

- TSUGA Canadensis** (Canadian Hemlock). This Hemlock will give the softening touch to any planting; handsome, dark green foliage, soft and fern-like. Good for foundation groups as it shears easily, and a specimen left on the lawn to develop naturally will assume a tree of magnificence..\$1.50 each and up
- TSUGA Canadensis Pendula** (Sargent's Weeping Hemlock). One of the choicest and most beautiful evergreens, of permanent weeping habit. Compact, moderate growth and graceful, spray-like branches; the leaves are more or less glaucous beneath. Rare.
\$2.00 each and up
- VIBURNUM Burkwoodii**. A fine, new open growing evergreen. with glossy leaves and abundant scented flowers similar to those of the well known *Viburnum Carlesi*, 15 to 18 in.....\$3.00 each
- VIBURNUM Carlesi** (Mayflower Viburnum). This Korean species well merited its position as the most popular shrub of recent introduction. The very sweetly scented flowers open blush pink, fading to pure white, in large rounded clusters. Rarely more than 5 feet high.....\$1.00 to \$2.00 each
- VITEX Macrophylla** (The Rare Chaste Tree). A lovely low-growing shrub of rounded form and handsome dark green, fernlike foliage. From June to September great lilac-like lavender-blue flowers are produced at the ends of the branches. Excellent for lawn or formal garden planting. 3 in. pot plants, spring delivery.
35c each
- WEIGELA Eva Rathke** (Red-flowering Weigela). Flowers deep carmine-red. Profuse bloomer and continues in bloom for a long time.....25c to 50c each
- WISTERIA Multijuga Naga Noda**. Astonishingly long clusters of purple flowers, three to four feet in length. Grafted plants.
\$2.00 each
- WISTERIA Multijuga Rosea** (Longcluster Pink Wisteria). The handsome pink flowers are borne in large pointed 18 to 24 inch clusters, with or before the leaves in spring. These are grafted plants and are sure to bloom. Grafted plants.....\$1.25 each
- WISTERIA Sinensis** (Purple Flowering Wisteria). Strong, rapid grower, desirable for trellises, porches, etc. The light purple pea-shaped flowers are very showy, and are produced in drooping racemes about a foot in length. A large vine in bloom is a beautiful sight. Our plants are either grafted or from cuttings off blooming plants and are sure to bloom.....\$1.00 each
- WISTERIA Sinensis Alba** (White Flowering Wisteria). A white flowering form of above. Prices same as above.....\$1.00 each
